

# Innovation Networks of Cork, Resins and Edibles in the Mediterranean basin - INCREDIBLE

Grant Agreement number: 774632

## Deliverable 4.3 - Project publication “Knowledge in practice”

Coordination and Support Action H2020-RUR-2017-1: Thematic Networks compiling knowledge ready for practice

Start date of project: 1 November 2017

Duration of project: 41 months (including extension)

Due date of deliverable: month 39 (01/21)

Actual submission date: month 40 (02/21)

Organisation name of lead contractor for this deliverable: EFI

Type of Deliverable: Report

Dissemination level: Public

Authors: Valentino Marini Govigli (EFI), Siebe Briers (EFI), Sarah Adams (EFI), Inazio Martinez De Arano (EFI), José Antonio Bonet (CTFC), Nicola Andriguetto (ETIFOR), Jacopo Giacomoni (ETIFOR), H. Baudriller (CNPF), Benjamin Chapelet (CNPF), Anton Brenko (CFRI), Dino Bursic (CFRI), Javier Calvo (CESEFOR), Roser Cristóbal (CTFC), C. Hardillier (CNPF), Sara Maltoni (FORESTAS), Sven Mutke (INIA), Joana Amaral Paulo (ISA), Conceição Santos-Silva (UNAC), Kalliopi Stara (Univ. of Ioannina), Nikos Markos (Univ. Of Ioannina), Ibtissem Taghouti (INRGREF), Margarida Tomé (ISA), Enrico Vidale (ETIFOR), Concha Redondo (CESEFOR)

Coordinator

Partners

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 774632

## List of abbreviations

The following acronyms have been used across this document:

- AMP Aromatic and medicinal plants
- D Deliverable
- iNet Innovation network
- MS Milestone
- NWFP(s) Non-wood forest product(s)
- WP Work Package

## 1. Executive Summary

D4.3 presents the knowledge transfer activities to targeted stakeholders that INCREDIBLE partners performed over the duration of the project. It lists articles in sectorial and practitioners' magazines and journals as well as articles targeted at broader audiences (e.g., blogs or web-stories) published at both national and international level. The dissemination items are subdivided per thematic iNets (Aromatic and medicinal plants; Cork; Mushrooms and truffles; Resins; Wild nuts and berries), and inter-iNets activities. This deliverable details how key project outcomes, process, and lessons learned from the iterative multi-actor processes have been disseminated to target audiences outside the project, as to increase the project impact and outreach.

## 2. Introduction

### 2.1. Purpose

The aim of INCREDIBLE thematic network is creating and animating a Mediterranean NWFP multiactor network, which can systematize the process of knowledge sharing, and bridge the research and innovation divide in forestry and rural development across NWFPs among actors. Along these lines, Deliverable 4.3 provides an overview of the knowledge transfer activities to targeted stakeholders that INCREDIBLE partners performed over the duration of the project. It covers both (i) articles in sectorial and practitioners' magazines and journals as well as (ii) articles targeted at broader audiences (e.g. blogs or web-stories). The purpose of this deliverable is showcasing how key project outcomes on NWFPs across iNets, and lessons learned from the iterative multi-actor processes have been disseminated to target audiences outside the project, as to increase the project impact and outreach.

### 2.2. Scope

D 4.3 is articulated in the following chapters:

- Sections 1 to 4 defines the purpose and scope of the document listing Tables and Figures in use.
- Sections 5 to 9 presents the dissemination items published for each thematic iNet (Aromatic and medicinal plants; Cork; Mushrooms and truffles; Resins; Wild nuts and berries).
- Section 10 lists inter-iNets dissemination articles, while Section 11 present an overview of the articles still in preparation at the time the document was drafted.

## 3. Tables

### 3.1. Applicable documents

The following documents, of the exact issue shown, form part of this document to the extent specified herein. Applicable documents are those referenced in the Contract or approved by the Approval Authority.

*Table 3-1 Applicable Documents*

Ref	Title	Code	Version	Date
AD1	A Road Map for innovating NWFPs value chains - Deliverable 1.3 - reviewed	D1.3	2	2019

## 4. Aromatic and Medicinal Plants

### 4.1. “Knowledge in practice” articles on Aromatic and Medicinal Plants – An overview

The iNet of Aromatic & Medicinal Plants aims at monitoring the ANP value chain as to support pan-Mediterranean actors in identify priority themes for Aromatic & Medicinal Plants sustainable production and domestication, harvesting, transformation, and commercialization (AD1). This iNet focuses on wild plants with relevant market potential and that pose specific challenges related to (i) supply arrangements, (ii) value-chain scaling-up, (iii) internalization of black and informal markets.

INCREDIBLE partners performed 31 dissemination items specifically related to the topic of Aromatic and Medicinal Plants, across three countries (Greece, Spain, and Tunisia), including three dissemination items published at international level. These articles consist of 15 articles in sectorial and practitioners' magazines and journals (e.g. forest and environmental issues sectorial environmental magazines, institutional blogs targeted to forestry practitioners, etc.) as well as 16 articles targeted at broader audiences (e.g. national, regional newspapers and non-specialists blogs and forums). The complete lists of items is provided in Section 4.2.

## 4.2. Table of dissemination items

Table 2. Dissemination items of the Aromatic and Medicinal Plants iNet.

## 5. Cork

### 5.1. “Knowledge in practice” articles on Cork – An overview

The iNet of Cork aims at identifying which factors mostly influence the cork value chain, and improve it across the Mediterranean through innovation development, knowledge transfer, and enhanced profitability to sustain management (AD1). It focuses on sharing innovative solutions for the Cork market covering (i): improved profitability of cork production, (ii) optimization of supply arrangements, and (iii) development of new business models for enhanced market penetration.

Seven dissemination items have been produced specifically related to the iNet of Cork, including four national items produced at Portuguese and Italian level, one at French level, and two dissemination items published at international level. The complete lists of items is provided in Section 5.2.

## 6. Mushrooms and Truffles

### 6.1. “Knowledge in practice” articles on Mushrooms and Truffles – An overview

The iNet of **Mushrooms and Truffles** aims at bringing together actors from the recreational level (e.g. occasional pickers), the commercial level (e.g. mushroom traders), as well as activities proper of the tertiary sector, as to foster knowledge-sharing around new production models and value chain reorganization which can enhance the economic performance of the sector and share benefit across all involved shareholders. (AD1).

INCREDIBLE partners performed 48 dissemination items on Mushrooms and Truffles- sectorial topics, across two main countries: Greece and Spain. These articles include 22 articles in sectorial and practitioners' magazines and journals (e.g., institutional webs, environmental magazines, blogs targeted to forestry practitioners, etc.) as well as 26 articles targeted at broader audiences (e.g. national, regional newspapers and non-specialists blogs and forums). The complete list of items is provided in Section 6.2.

## 7. Resins

### 7.1. “Knowledge in practice” articles on Resins – An overview

The iNet of Resins aims at exploring the existing best practices across European gum resin value chain. Its main objectives are: (i) to improve the natural resin production system of Mediterranean forests to supply the local industry; (ii) to generate stable and quality employment in the rural areas of the Mediterranean region through resin extraction activities; (iii) to valorize and promote the natural resin produced in Mediterranean forests as a socially, economically and environmentally sustainable resources (AD1).

45 dissemination items were done in relation to Resins, mainly at Spanish and international level. These articles include 31 articles in sectorial and practitioners' magazines and journals (as well as 16 articles targeted at broader audiences (e.g. national, regional newspapers and non-specialists blogs and forums). The complete lists of items is provided in Section 7.2.

## 8. Wild Nuts and Berries

### 8.1. “Knowledge in practice” articles on Wild Nuts and Berries – An overview

The iNet of Wild Nuts and Berries focuses on sharing knowledge around pests, diseases and fruit pests are one of the main fronts to address, besides the adoption of new forms of forest management taking into account adaptation to climate change, with the focus on the fact that new business opportunities must guarantee traceability and product quality throughout the value chain (AD1).

INCREIBLE partners produced 71 dissemination items specifically related to Wild Nuts and berries, mainly disseminated at Spanish, Portuguese, and Interregional level. These articles include 41 articles in sectorial and practitioners' magazines and journals as well as 30 articles targeted at broader audiences, through regional, national newspapers and dissemination blogs. The complete list of articles is provided in Section 8.2.

## 9. Inter-iNets dissemination articles

Beside iNet-specific dissemination articles, INCREDIBLE partners produced a series of dissemination items aiming at disseminating multiple aspects of NWFPs altogether. These include: project showcasing articles (e.g. promotion of the project activities, and main achievements), and lessons learned from the iterative multi-actor process undertaken with INCREDIBLE stakeholders across the project life-cycle. The list provided in Table 9.1 includes 67 entries. Amongst these, 6 are scientific presentations at conferences, publications, and book chapters.

## 9.1. Table of dissemination items

Table 7. Inter-iNets dissemination items.
