Summary

INCREDIBLE main results and outcomes

INCREDIBLE is a thematic network that contributes to the successful production and collection of vast scientific and practical knowledge for Non-Wood Forest Products (NWFPs). The launched innovation network of networks (iNETs) enables a systematic participation of multiple actors across value chains. The knowledge and experiences are available in our repository.

Stakeholder interactions

INCREDIBLE main results and outcomes

The complexity of NWFPs challenges requires multi-actor perspectives focused on problems and opportunities across the value chain. Five innovation networks constitute the next level in terms of knowledge sharing from science and practice. INCREDIBLE shares complementary types of knowledge from distinct actors (forest owners, collectors, industries and customers) in multiple project activities for each network.

Knowledge repository

INCREDIBLE main results and outcomes

The INCREDible knowledge repository for NWFPs has grown to become a unique share point of knowledge and practical experiences for NWFPs. It enables researchers to highlight the work they have carried out in a multi-actor environment. Such work is more likely to be taken up in practice, and this can help research institutions to show and measure the impact of their research.

Captured outcomes

INCREDIBLE main results and outcomes

The Open Innovation Challenge aimed to select the most innovative ideas at seed stage or start-up stage in the professional and research communities, to transform them into concrete solutions capable of meeting the most pressing needs of NWFPs sector. The winning projects joined the Acceleration Service, which was a two-weeks training course, focused on business, marketing and communication strategies.

Policy Forum

INCREDIBLE main results and outcomes

The Policy Forum took place on 16 and 17 March 2021 to discuss the actions needed to position NWFP as a pillar of Europe's bioeconomy. The Forum targeted EU, national, regional and local policy makers and key stakeholders in NWFP value chains. This virtual event served as an opportunity to enrich a [white paper on policy priorities](#) and the [Manifesto of Alghero](#).

Dissemination and outreach

INCREDIBLE main results and outcomes

INCREDIBLE contributes to social and business innovation through intensive dissemination, targeted outreach activities and specific multipliers for diverse audiences. INCREDIBLE increases the flow of practical information among geographical areas in the Mediterranean area and promotes interregional cooperation among diverse actors.

INCREDIBLE has fostered exchanges to solve the most pressing knowledge needs and created innovation opportunities for NWFPs. In the mid- and long-term, it will enhance the environmental and economic performance of forestry across the Mediterranean basin, Europe and globally. INCREDIBLE improves the access to knowledge, the identification of business opportunities and cooperation.

INCREDIBLE has a positive impact on the development of innovative products and services associated with new business models in the NWFP sector.
