“Cork quality assessment – Training session”

Introduction: This two-day event is organised in 4 modular sessions and aims to develop regional skills for cork quality assessment in the Mediterranean region.

Addressed to: Cork producers and managers, technicians and landowners' associations.

Language: English

Objectives to be reached:

- A. Participants will become familiar with:
- Cork sampling field protocols used in Portugal and Spain;
 - Cork quality commercial classification protocols;
 - Cork defects, pests and diseases with impact in the market value;
- B. Cork iNet questions directly targeted:
- Profitability of cork production
 - Attempt the adoption of a common standard for assessing cork quality across the Mediterranean

Practical information

Place (7th & 9th October)

The science to practice event will take place on-line due to the COVID-19 pandemic.

Registrations

The registrations will be made on-line and can be done for the 4 modules or by module. After the registration participants will receive the link connection for the sessions and all the relevant materials.

- a) If you wish to register for the all event please make your registration at
<https://www.eventbrite.pt/e/123199167025>
- b) If you wish to register only for some of the modules please make your registration at
<https://www.eventbrite.pt/e/123179885353>
