Per quello che riguarda l'emblema della nostra associazione, presumo che il simbolismo sia ovvio, poiche l'intersezione di un agaricus si riferisce a un capitello del typo ionico.

Regarding the emblem of our association, I suppose the symbolism is obvious and profound...

as the intersection of species Agaricus definitely refers to ancient greek column of Ionian Rythym art techniqe.

Negli ultimi 19 anni, l'interesse per i funghi selvatici nel nostro paese ha avuto un'evoluzione senza precedenti. Un fenomeno micologico multilaterale, accompagnato da una considerevole attività sociale, economica, culturale e di ricerca scientifica. **Sappiamo tuttavia, che siamo solo all'inizio.**

Over the last nineteen years, focusing on wild mushrooms, an unprecedented phenomenon has been recorded in our country. A phenomenon of great myco-philía, myco-learning and myco-development, accompanied by considerable social, economic, cultural and research-scientific activity. **However, we are aware, that we are only at the beginning.**

Vi presentiamo allora l'attività dei nostri gruppi regionali che, in collaborazione con altri micologi, greci e shranieri, hanno contribuito in modo decisivo alla nascita e allo sviluppo di questo fenomeno, avendo studiato funghi selvantici da tutti gli aspetti comme:

φωτο: Δ. Βολοβότης

Today we are presenting to you all, the activity of our associations and their members, which in cooperation with other mycologists, Greeks and foreigners, have contributed decisively to the birth and development of this phenomenon, and have been studying mushrooms from many perspectives, such as:

-Eccelente nutrimento, che ci porta a contatto con la natura e una sua piu approfondita conoscenza delle sue regole, avendo come risultato una maggiore sensibilita ecologica e un imperativo per il termine sostenibilita.

deeper understanding of the universal rules, having as a result a heightened ecological sensitivity and an imperative for sustainability

-occasione per sviluppare un'azione collettiva che migliora la coesione sociale.

-occasion to develop collective action and coexistence, which enhances social cohesion,

-occasione per attività culturali che migliorano la qualità della vita nelle comunità locali,

-occasion for cultural activities that enhance the quality of life in local communities,

-opportunita di strigare legami e amicizia con persone provenienti da paesi stranieri,

Dieci associazioni micologiche in Grecia (9 gruppi regionali e uno nazionale in collaborazione con micologi professionisti Greci e stranieri , autorità locali, musei di funghi, centri de educazione ambientale, istituti di ricerca dei parchi nazionali e associazioni culturali locali , abbiamo organizzato insieme piu di 250 festival di funghi e seminari di formazione negli ultimi 19 anni.

Ten mushroom associations in Greece (9 local-regional and one nationwide), in cooperation with Greek and foreign professional mycologists, local authorities, mushroom museums, Environmental Education Centers, National Park's research institutions and local cultural associations, we have organized together, more than 250 mushroom festivals and fungi-learning seminars over the last 19 years .

-Questi festival , incieme a decine di ristorante e ostelli specializzati nella cucina a base di funghi e alla gestione di tre musei tematici, hanno attirato un numero significativo di visitatori greci e stranieri.

These festivals, along with dozens of restaurants and hostels that are specialized in mushroom cooking and the operation of three thematic Mushroom Museums, have been attracting a significant number of Greek and foreign visitors.

In Grecia abbiamo dimostrato di essere in grado di organizzare uno di i più grandi festival di funghi di alta qualità e multidimensionali in Europa, dato che, durante il festival annuale dei funghi, siamo riusciti a ospitare, a Grevena, oltre 15.000 visitatori da tutto il mondo.

In Greece we have proved that we are capable of organizing one of the most massive high-quality and multidimensional mushroom festivals in Europe, since, during the annual mushroom festival, we managed to host, at Grevena, more than 15,000 visitors from all over the world.

Allo stesso tempo piccole imprese familiari che impiegano dozzine di raccoglitori, elaborano, confezionano e commercializzano funghi,

At the same time, small family businesses that employ dozens of collectors, process, standardize and market fungi and fungi products,

Per quanto ne sappiamo Grevena, la mia città, è l'unica città al mondo che è stata proclamata ufficialmente "Città dei funghi" dal suo consiglio comunale nel 2007.

As far as we know, Grevena, my hometown, is the only city in the world that has officially been proclaimed as "Town of mushrooms" by its Municipal Council, and that happened in 2007.

Le sculture dei funghi adornano le zone centrali della città,

Fungi sculptures adorn central city locations

mentre all'ingresso ci sono segnali che danno il benvenuto visitatori di Grevena, la città dei funghi.

while at the entrances there are signs that welcome visitors to Grevena, the Town of Mushrooms.

Inoltre, nel 2013, i funghi selvatici sono ufficialmente aggiunti al paniere formale dei prodotti locali della nostra regione (Ovest Macedonia).

## ΠΕΡΙΦΕΡΕΙΑ ΔΥΤΙΚΗΣ ΜΑΚΕΔΟΝΙΑΣ

### ΠΡΟΣΚΛΗΣΗ

Ο Γενικός Γραμματέας Απασχολούμενης Διοίκησης  
Ηπείρου-Δυτικής Μακεδονίας  
Ηλίας Θεοδωρίδης

σας προσκαλεί στην ημερίδα που διοργανώνει με θέμα:

**«Εθνική Στρατηγική Αγροτικής Ανάπτυξης:  
Ανασυγκρότηση της Παραγωγής  
Οψείας της Αγροτικής Μεταρρύθμισης στην Ελλάδα»**

Η ημερίδα θα πραγματοποιηθεί παρουσία του Υπουργού  
Αγροτικής Ανάπτυξης & Τροφίμων **Αθανάσιου Τσαυτάρη**  
την **Πέμπτη 13 Ιουνίου** στην **Κοζάνη**

È opportuno ricordare che abbiamo registrato più 2000 specie di macromiceti che tra loro erano diverse specie registrate per la prima volta in tutto il mondo. Ad esempio, vorrei ricordare che nell'ultimo anno (2015) sette nuove (7) nuove specie di ascomicidi ipogei, come riportato di seguito, sono state pubblicate scientificamente e co-autore di due micologi dilettanti greci (B. Kaunas e G. Konstantinidis):

***Barssia hellenica*** Kaunas, Agnello, P. Alvarado & Slavova,  
***Genea brunneocarpa*** G. Moreno, J. Cabero & Kaunas,  
***Genea fageticola*** Konstantinidis, Cabero & F. García,  
***Genea pinicola*** Kaunas, Cabero & F. García,  
***Genea pseudoverrucosa*** Bratek, Konstantinidis & Van Vooren,  
***Terfezia cistophila*** Ant. Rodr., Bordallo, V. Kaunas, & Morte  
and ***Terfezia grisea*** Bordallo, V. Kaunas & Ant. Rodr.

***Barssia hellenica* sp. nov. (Ascomycota, Pezizales), a new  
hypogeous species from Greece**

*Ascomycete.org*, 7 (5) : 213-219.  
Août 2015  
Mise en ligne le 21/08/2015

Vasileios KAOUNAS  
Carlo AGNELLO  
Pablo ALVARADO  
Monica SLAVOVA

It is appropriate to mention that we have recorded more than 2000 species of macromycetes that among them were several first-recorded worldwide species. As an example, I would like to mention that during the last year (2015) seven (7) new species of hypogeous ascomycetes, as reported below, were scientifically published co-authored by two Greek amateur mycologists (B. Kaunas and G. Konstantinidis):

Γρεβενά,  
η πόλη των μανιταριών!

The image is an aerial photograph of the town of Grevena in Greece. A white hand-drawn outline highlights the urban area, which is densely packed with buildings and roads. The surrounding landscape is a mix of agricultural fields and greenery. Several labels in Greek are visible on the map, including 'Bousiou Georgiou', 'Αγίου Κοσμά', 'Αμφοβία', 'Μεγαλίου Αλεξάνδρου', 'Γρεβενών Στάθμος', 'Β. Σοφιστίου', and 'Γρεβενά'. A road labeled '15' is visible in the bottom right corner, and a purple line representing a railway or highway runs along the bottom edge.

Gracie per il tempo e l'attenzione riservatoci.

Thank you all for your time and attention.
